WORK EXPERIENCE

FullStack Developer

Softway Solutions Private Limited

Feb'23 - Present
Bangalore, India

- Managed a significant trade association project independently, catering to over 250 companies.
- Engaged in nearly every stage of the Software Development Life Cycle (SDLC) for the project.
- Effectively outlined project requirements, established key milestones, created workflow diagrams, figma designs, and broke down client stories to identify technical tasks for a retainer project.

ACHIEVEMENTS

- 🏆 PestoTech Fellow (Pursuing)
- 🏆 Certified in Azure 900
- 🏆 3 Performance awards
- 🏆 MongoDB Certification (Pursuing)

- Successfully optimised the core functionalities, reducing the time taken and resource utilisation to 20% of the original one.
- Implemented complex functionalities, enhancing the UX, responsiveness and overall design by implementing intuitive UI designs.
- Worked directly with the Client.

Senior Software Developer

HCL Technologies Limited

Nov'22 - Feb'23

Lucknow, Uttar Pradesh

- Contributed to Microsoft Dynamics 365 Platform, contributing in the enhancement of the CRM platform.
- Implemented the solutions for an effective and reliable automation system.
- Brought innovation to existing systems by optimising them using Microsoft Azure.
- Drastically improved the precision, scope, and efficiency within the existing structure while simultaneously elevating coding standards and system architecture.
- Managed a team of six developers and actively conducted technical interviews.

Software Developer

HCL Technologies Limited

Oct'19 - Nov'22

Lucknow, Uttar Pradesh

- Developed a tool to crawl webpages and track daily changes including the UI, accessibility, and performance scores.
- Contributed in the development and enhancements of various internal tools used by client, including but not limited to an electron app, chrome extensions and backend solutions.
- Worked on bing search, building cross platform backend APIs, gathering and storing analytics data.
- Worked on developing a Scheduler, which helped bring operational costs down.

HCL TechBee Trainee

HCL TSS

Jul'18 - Oct'19

Lucknow, Uttar Pradesh

- Created a web application to configure network devices, take backups and monitor uptime.
- Enhanced technical prowess in JavaScript, SQL, Computer Networks, Operating Systems and ITIL through immersive training at HCL TechBee, setting a strong foundation for IT career progression.
- Polished communication abilities through regular interactions with mentors and peers, facilitating clear expression of ideas and effective teamwork.
- Secured scholarship by obtaining 85%+ grades

PERSONAL PROJECTS

FITX

An AI-driven fitness app in development, aims to transform health and wellness approaches. Using Google Fit API, it analyses user data to offer personalised workout and nutrition plans. Key features include workout tracking, meal planning, goal setting, and community engagement. The app prioritises user experience, privacy, and security.

EDUCATION

Bachelor of Computer Science

Integral University, Lucknow, Uttar Pradesh
